Dear Reader,

Card village is a series of greeting cards we designed to help both you and us to pray and consider what God does in our lives. The village is made up of a number of buildings. Each greeting card will have one building that can be cut apart and glued together. It is our intent to eventually send you the greeting cards needed to complete Card Village.

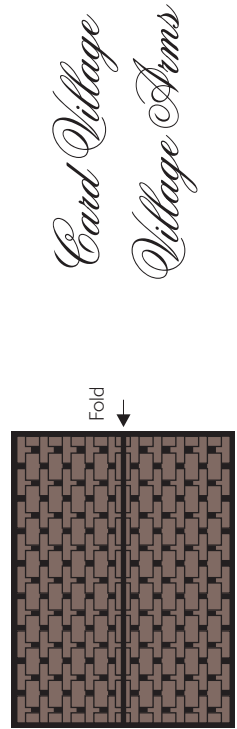

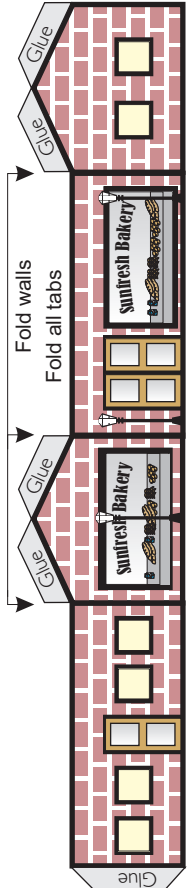

We realize that not everyone is up to this kind of craft. But perhaps you could find someone who is and let them have the “fun” of cutting and gluing the pieces together!

We would like to hear from you. If you care not to receive these cards just drop us a note.

God bless you.
