

*"Be still, and know
that I am God;
I will be exalted
among the nations,
I will be exalted in
the earth!"*

Psalms 46:10

"It's fun to exercise God's gift of creativity!"

*There are times in life
when anxiety levels
increase. We are
reminded that God is
in control. Trust Him
in all of life's
situations.*

Make Your Own Greeting Cards

Have you given thought to making your own greeting cards? Here are some tips.
Make a template in your word processor and set the custom page size to 8.5” width and 5.5” height. (Same dimensions for printer set up.)

Select Landscape.

Adjust page margins to 0.5”.

Set page columns to 2 with the dividing margin of 1”.

Save the file as a template.

For a few cards, cut cardstock paper in half. We make lots of these. I bought a ream of cardstock from our local print shop and asked that it be cut in half. I use the rear feed on my printer for cards. Set the printer’s custom paper size to match template file.

Keep in mind the layout of the card. The card is folded in half. You will need front and back pages. Print 1 page, flip the cardstock and print the other page. Fold card in half and you’re done!

Correct size envelopes are available.

Have fun.
